PREAMBLE

We have formed this organization for the purpose of bringing forth the truth and universal knowledge that resides in all mankind. Since the beginning of time there has been in action a Universal guiding force, that some call GOD. This guiding force is at work now, just as it has been in the past and just as it will be in the future.

There are basic laws that must be obeyed by man, as an individual and collectively, to bring about the world harmony that everyone talks about and looks forward to obtaining. While we do not profess to know, and/or teach all there is to know, we do know that we have a method that works. We invite all to study and learn with us in the attitude of seeking, finding, and using the Universal Laws which are the total answer to all the ills, dreams and aspirations of mankind.

We are appreciative of all who want to learn, to maintain harmony at the Chapel, and to focus attention on the precepts of our philosophy, all through loving kindness, compassion, and the power of positive thought and action. Whoever you are, wherever you are on your spiritual pathway, you are welcome to join us.

BASIC PRECEPTS OF THE PHILOSOPHY

It is fitting that we bring forth here, the basic precepts that make up the building blocks of our philosophy. They are not new; they are as old as time itself.

1. We affirm that there is an Infinite Intelligence in action through all time. Our definition of God is simply that "God Is."
2. We affirm that there is a continuation of the individual beyond that change called "death."
3. We affirm that Reincarnation is one of the major Spiritual Laws and that it is the mechanism through which life evolves towards perfection.
4. We affirm that there is a general evolution, from simple to complex forms, both in life forms as well as inanimate matter, and that this same law is in effect in the Physical Universe as it is in the Spiritual Universe.
5. We affirm that Heaven and Hell are two states of living here and now. That these are not two places "somewhere" but are the result of living in the now; heaven when we are living within the proper framework, and hell when we live not in harmony with the Universal Laws.
6. We affirm that Karma is simple causation. That we as individuals are responsible for our actions in that we give out that which we wish to be returned to us. This is, of course, the "Golden Rule."
7. We affirm that there is communication with the so-called "departed individuals," under proper conditions, which can be used for the betterment of all mankind.
8. We affirm that the Universe, both Physical and Spiritual, had no beginning. It has always been and will always be.
9. We affirm that the Universal Laws have been known by mankind since the earliest dawning of consciousness, and that it is these same laws which the great Masters of the past have tried to bring into man's active lives.
